Agency Projects/Open Discussion:

- Kirk Keller gave an update on the P3P issue sent out previously through e-mail. This is a Platform for Privacy Preferences Project (P3P), developed by the World Wide Web Consortium. There is a P3P XML and HTML file.
- Kirk and Kevin Lanahan gave an update on the News Portal project. The RSS vs. 2 is ready; Rodney and Corey from Lottery worked up the feed. Look at the DMD Web site for a sample. Kevin modified the Coronto portion to make the RSS vs. 2 work. If you are using another agent this won't work.
